Work Experience

Community Health Worker – Care International, Nairobi | 2018 – Present

- Conducted household health visits reaching over 2,500 community members annually with health education and screening services.
- Supported maternal and child health clinics, helping increase antenatal attendance by 35% within two years.
- Assisted in vaccination campaigns that reached over 10,000 children under five years old.
- Collected and reported field data to improve program planning and disease surveillance.

Cleaner - Red Cross Society, Nyeri | 2014 – 2018

- Supported medical outreach clinics in remote communities, serving more than 5,000 residents annually.
- Provided first aid and emergency response during floods and community events.
- Distributed health information materials and mobilized communities for public health campaigns.

- Worked with local clinics to follow up on patients requiring continued care and support.
